

Gabriel Ramos
Photography

Hi there, I'm Gabriel!

Concert photography always had my heart.

I fell in love for photography around 2013 and since then, I've been dedicating my time to perfecting and improve not only my photographic vision, but the whole stetic around my work and also the way I capture moment through my lenses.

That's what fascinates me: combining in a single artifact two artistic expressions, the art of photography and the art of music.

In this journey on the stages I've had the honor to work and had my photos used by many press outlets, bands and producers, as you can see a few of them above.

Despite that, I've always enjoyed being behind the camera, bringing it to every adventure I might be on.

So far, I had the opportunity to capture a few places around the world, including not only **Brazil**, but also incredible countries such as the **USA**, **Ireland**, **Argentina**, **Bolivia**, **Scotland**, **England**, **Faroe Islands**, **Iceland** and more recently **México**.

And that's how I got the incredible mark of near **100M views** and **700k downloads** on my Unsplash and Pexels profile

Would you believe me if I tell you a few of my top viewed photos were made on smartphone?

On top of that, I also had some of these photos being used by big brands around Brazil, being displayed on massive panels and outdoors across avenues and specially airports to **hundreds of thousands of people** on a daily basis.

So now is up to you...

Is it time for us to work together?

Let's keep in touch!
